### **Barnsley Community Solutions start work on new health facilities in Grimethorpe & Cudworth**

Barnsley Community Solutions (BCS), a subsidiary of Community Solutions for Primary Care (CSPC), a Morgan Sindall Investments Limited joint-venture company, is pleased to announce the commencement of building work on Grimethorpe and Cudworth.

Following their successful completion of similar schemes in Worsbrough, Thurnscoe and Goldthorpe, Morgan Ashurst (formerly Bluestone) will lead the design and build the two new surgeries for BCS, a public / private partnership between Barnsley Primary Care Trust, Barnsley Metropolitan Borough Council, CSPC and Partnerships for Health.

Both new purpose-built centres, due to open in March and August 2008 respectively, are part of a new wave of 'super surgeries' opening up for NHS patients across the country under NHS LIFT Public Private Partnerships and will contribute significantly to the health, social and economic well-being of these areas as well as providing prosperity and opportunity for all.
