MSIL reached PB on Tayside Acute Adult Mental Health Developments project

The Taycare consortium, a joint venture between Morgan Sindall Investments Limited and Robertson Capital Projects, has been appointed Preferred Bidder on the £120m scheme by NHS Tayside.

The project, which has been procured through the Scottish Non-Profit Distributing PPP model and includes a 30 year concession period, comprises the development of mental health facilities at Murray Royal Hospital in Perth and Stracathro Hospital in Brechin.

Financial close is expected to be reached by December 2009 and construction works should start in January 2010. Morgan Ashurst will design and build the facilities.
